Leading the way in sustainable lighting solutions

Discover sustainable LED luminaires and robust outdoor lighting for versatile landscape applications.

Klite has been a pioneer in the field of architectural lighting, offering an extensive range of high-quality luminaires and poles designed to complement a variety of applications and design styles. With manufacturing units located in Bhopal and Chennai, Klite emphasises the importance of sustainable and efficient LED luminaires, positioning itself as a leader in innovative lighting solutions.

Klite's journey began over four decades ago, and throughout this time, the company has consistently prioritised the creation of superior lighting products. The company's extensive collection includes architectural luminaires and poles crafted

to meet diverse aesthetic and functional needs. This dedication to quality and versatility has cemented Klite's reputation as a trusted name in the lighting industry.

Klite's manufacturing facilities in Bhopal and Chennai are equipped with state-of-the-art technology, ensuring that each product meets the highest standards of quality and efficiency. The company's focus on sustainability is evident in its commitment to designing and manufacturing LED luminaires that reduce energy consumption and have a minimal environmental impact.

Designed to conquer the challenges of outdoor environments, Klite's landscape

products are built to withstand a variety of environmental factors. Each product is engineered to offer high ingress protection (IP) and impact protection (IK) ratings, ensuring durability and robustness without compromising on aesthetic appeal. This unique blend of strength and elegance makes Klite's outdoor lighting solutions a standout choice for a wide range of landscape applications.

Klite's landscape lighting range caters to a broad spectrum of needs and preferences. The collection includes linear wall washers, Up-Down Lighters, LED Strips/Neon Flex, Promenade Lighting, Bolts, Underwater Lighting, Post-Top Illuminators, Bulk Heads, Pathfinders, IP67 linear profiles, polar lighting, and a newly added series of Facade Lighting.

Klite's commitment to innovation extends beyond product design to encompass sustainable manufacturing practices. The company invests in continuous research and development to enhance the efficiency and environmental friendliness of its products. This unwavering commitment ensures that Klite remains at the forefront of the architectural lighting industry, delivering solutions that are both cutting-edge and ecologically responsible.

Klite's unwavering commitment to quality, sustainability, and innovation has made it a leader in the architectural lighting sector. With a diverse range of robust and aesthetically pleasing lighting solutions, Klite continues illuminating spaces elegantly and efficiently. Whether for residential, commercial, or public spaces, Klite's products are designed to meet the highest performance and design standards, ensuring that every project shines brilliantly.
